# BEGINNERS

e-mer-gen-cy (n) – the emergence of someone or something important requiring immediate action or attention. 2. an urgent matter of importance which requires attention: emergencies: plural (n) serious, unexpected, situations requiring immediate attention and action. Synonyms: urgency, exigency Example: 1. Mass media, political news, and general information are in a state of emergency. 2. It is good to pray during advent, a time of emergency and a time great religious fervency – JC Angelcraft for Beginners

#### Welcome to JC Angelcraft for Beginners

Welcome to JC Angelcraft for beginners. Mass media, political news and general information are in a state of emergency. This means that television, radio, wireless, cable and the internet are not perfectly reliable. Add to this many insecure and secure websites on the internet are producing false information. Even the government is challenged to produce better information. But together with businesses and organizations we are trying to do our best through the JC Angelcraft Network and our emergency systems to provide you with important information, peace of mind and relief.

The information emergency which started between 2011-2012 has the ability to affect simple everyday things that we take for granted especially those processes which make laws. People and businesses should always make sure to evaluate new rules or legislation before applying them. We do not believe in terrorist generated coronavirus information & statistics. We do not not agree with the coronavirus restrictions, legislation and the political conspiracy behind them. We are working every day to stop all conspiracies and bring them justice.

Terrorist inspired legislation remains a problem around the world. Laws causing you to have to live your lives in a way that you are not accustomed to must be evaluated for any additional danger that they may generate. You do not have to do anything that puts your life, the life your families and friends and customers in danger.

#### Message for Business

Find a way to do business and to help people in your communities. We are living in important and historical times. Business and government are beaten down psychologically and spiritually by terrorists and their conspiracies. Because of this a new central government has arisen to confront and bring to justice international terrorism. With the blessing of God's Holy Spirit the world crown gives you justice every day. If you believe in God or even if you do not, we welcome you.

#### JC Angelcraft for beginners

We created JC Angelcraft for beginners in 2020, but we have been around a long time and so has our ministry. To take you back to the very beginning would not be wise. There are problems with news and information and in most cases that is why you are here. God's Holy Spirit is helping us with these problems.

#### Whats else is happening?

We want to inform you that the World Crown has been established. The World Crown is a new form of central government. The World Crown intends to save you from terrorism which works inside your country and your government.

#### The syndicate

The syndicate which syndicated news worldwide and once controlled governments around the world were a group of very powerful men. They were a mafia filled with very rich men and politicians who belonged to secret societies. These men have been brought to justice, but the mass media news and information does not talk about it and continues to pretend and produce journalism as if these politicians are still active in society and they are not. Every day the political conspiracy continues, the justice of God also continues.

We advise staying away from mass media, the radio, television and the internet; by this we mean do not let it control your emotions and beliefs- Keep tabs on it so news, true or false, does not take you by surprise. Keep tabs on government websites so no new laws made take you by surprise. We feel that prayer is good during these very historical days. As the situation changes you will eventually be updated with news that corroborates our own, if you are not updated already. The mass media conspiracy is different in every nation. We advise you to reflect and consider private time praying to God's Holy Spirit who is very active in our world. Prayer, meditation and rest are said to reduce anxiety.

#### Resources

These websites are intended to give you some relief from the mass media emergency as well as news and information

- World Crown website
- World Health Organization Emergency Services website in English and in Spanish.
- The Daily Page English & Spanish

#### Government, Law Enforcement& Justice

These last years many things have gotten better and many terrorist have been brought to justice. The mass media conspiracy is different in each nation. The government, the military and the police are getting better every day at protecting citizens from the harm of today's criminal conspiracy, but like I said it is different in every nation. If you are not being protected from news and conspiracy information by your government, with time you will be. It took real government a while to believe like many people that their politicians were being brought to justice But once they confirmed the Justice of God of which I write things started rolling, but it was not perfect and around the world many governments at the local, regional and state level remained in conspiracy and driven by terrorism to do so. Bringing politicians and the syndicate to justice is only the beginning of the justice that is needed to help us fix out world. Justice matters also permeate education, business, organizational and general affairs of daily life.

#### **The World Crown Network**

The world crown network is a series of information websites created by Jose Maria Chavira M.S.. Jose's writer's name is JC Angelcraft. The world crown network is also known as the JC Angelcraft network., Angelcraft Media, ABN the Angelcraft Broadcast Network. Inside our network are links to safe performing arts providers at YouTube and WHO the World Health Organization. We encourage good public health and do not believe in health terrorism or any kind of terrorism. We feel people should learn about terrorism through WHO who provides a wealth of information about diseases and health problems around the world.

The world crown, our network a vast and contains many websites with religious writing and media to help you stay informed and pass time should you decide to use us as your internet source. Right now this system is attacked by terrorists and Our Daily Pages (English) and China's mass media emergency warning system is down. Whatever is left remaining we will continue to use to warn you until we can longer use it.

#### **WordPress**

The world crown network is hosted by WordPress and occasionally terrorist succeed in taking down a website of ours. Every time they do this they try to humiliate us publicly and then follow up their destruction of our work by telling people wrong information about us and our ministry. We know this is not WordPress that does this to us. Terrorists pretend to control WordPress using terrorist style incursions into WordPress to gain access to its legal jargon and accuse us falsely of violating terms of service. We know that it is terrorists who accuse us and hack into WordPress, because no lawyers ever follow up and WordPress never calls us to tell us to stop or to confirm the actions of the terrorism that has affected us. What happens at WordPress also happens at other media services such as YouTube and Facebook and we are not the only people, business or organization whose work gets destroyed or altered by terrorists and terrorism. We advise people to stay away from television, radio and

all mass media and to keep in touch with local government in person or by phone and to have emergency numbers always at hand.

#### **Our Daily Pages**

China's and the United States mass media warning system Our Daily Pages keeps getting hacked and turned off by terrorists. Stick to <u>The</u> Daily Page until we can stabilize our WordPress platforms.

#### **About Google**

If google translating services are not working well, it should just be temporary. I do not say anything that will hurt you or confuse you. I write very clearly. Please try to do your best to get through my writing. Mass media political news and general information are in state of emergency. The situation changes as the terrorists are brought to justice. In countries shut down by terrorism, the economy should start back up again and very soon. It is impossible for us to remain in this health emergency state for long. It is to extreme and it is false emergency.

Thank you.
